EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

✓ Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend the specification as follows:

In page 2 (See the preliminary amendment to the specification filed on August 28, 2003), paragraph 1, line 2, after "2000" insert ", which is now abandoned" - -

✓ Reasons for Allowance

2. Claims 22-24, 29, and 39-42 are allowed. The claims will be renumbered as 1-8.
3. The following is an examiner's statement of reasons for allowance: the key difference between the closest prior art (Watanabe) and the instant invention is the fact that Watanabe does not rely upon, among other things, recognizing the character in the binary image created by the image editor based on an identification result of the type of the sheet identified by the sheet identifier, and displaying: a binary image separated by an area separator and a recognition result thereof corresponding to the binary image recognized by the recognizer, the multi-valued image separated by the area separating unit, and a multi-valued image of the whole sheet including the binary image and multi-valued image. These features in combination with the other elements of the claims are not disclosed or fairly suggested by the closest prior art of Watanabe.

Art Unit: 2625

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
